LIMITATIONS OF THIS QUICK REFERENCE GUIDE

This Quick Reference Guide is designed to provide information on the important key features and controls of Entune (apps and data services), audio, bluetooth and navigation. The Quick Reference Guide is not intended as a substitute for the Owner's Manual. We strongly encourage you to review the Owner's Manual, this Quick Reference Guide and visit www.toyota.com/entune so that you will have a better understanding of all your vehicle's features and controls.

STOP **PLEASE READ**

ENTUNE

In order to access Entune applications from your vehicle's touch screen, you must use a computer to register for Entune. Visit www.toyota.com/entune to learn all about Entune features and use the link to register. After you register use your cell phone to download the Entune app from the appropriate app store.

The available Entune system is a collection of popular mobile applications and data services integrated with select Toyota vehicles. Entune includes three years of complimentary access to apps and services delivered via most smart phones and some feature phones. After three years, an access charge will apply. Depending on the details of your data-enabled phone contract, **data usage fees may apply**. Some applications may require additional registration. See www.toyota.com/entune.

For additional information on Entune and to check phone compatibility, visit www.toyota.com/entune or call the Toyota Customer Experience Center at 1-800-331-4331.

PHONE COMPATIBILITY

- To check phone compatibility refer to www.toyota.com/entune or scan the ToyoTag (message and data rates may apply).

- You do not need a smartphone to use Bluetooth® hands-free, Bluetooth audio or the navigation system. For Bluetooth phone pairing, refer to page 4.

ToyoTag

entune™ - *NEW CUSTOMER REGISTRATION*

GETTING STARTED WITH ENTUNE

step 1 From a computer, access www.toyota.com/entune

step 2 Click on the "Getting Started" tab located on the top of the page

step 3 Click on "How Do I Use Entune?"

**step 4** Follow the directions to ensure you have a compatible phone and begin creating your account

> **Quick Tip** - Your VIN can be found on your vehicle registration. The VIN is also located on the top of the instrument panel near the front of the driver door, and can easily be viewed from outside the vehicle.

DOWNLOADING ENTUNE APP TO YOUR PHONE

Using your cell phone, connect to your app store (iTunes App store, Blackberry App World, Andriod Market) and search for Entune and download.

CONNECT A *BLUETOOTH PHONE*

To connect your phone follow the steps below. Please refer to www.toyota.com/entune for more information. **iPhone users: connect iPhone to the USB connector (refer to owner's manual for USB connector location).**
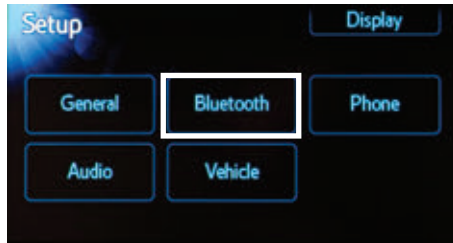

step 1 Press `SETUP` on the faceplate followed by `Bluetooth`.
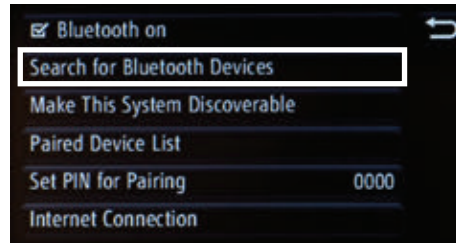

step 2 Touch `Search for Bluetooth Devices`. Verify that the Bluetooth feature on the phone is ON and is in discoverable mode. The specific process for this varies from phone to phone. Please refer to the cell phone manufacturer's user guide for pairing procedures.
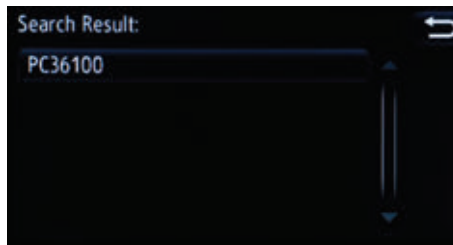

step 3 Touch the button identifying your phone. A pop-up message will direct you to start the paring process on your phone. Follow any additional instruction shown on screen or phone.

Or, make the head-unit discoverable and pair from your phone: *PRESS* `SETUP` > `Bluetooth` > `Make This System Discoverable`
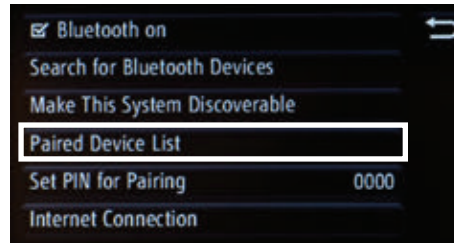

Depending on your phone compatibility it may not be necessary to connect individually for all functions. Please see paired devices screen: *PRESS* `SETUP` > `Bluetooth` > `Paired Device List`
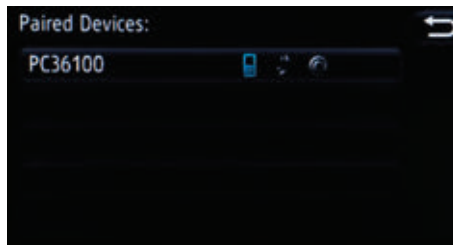

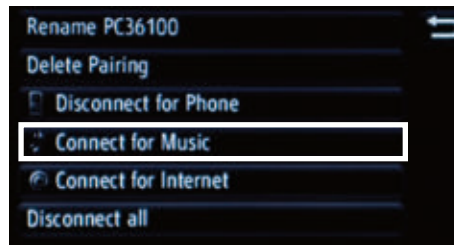

4

Depending on your phone compatibility it may not be necessary to connect individually for all functions.
Please see paired devices screen: **_PRESS_** `SETUP` **>** `Bluetooth` **>** `Paired Device List`

Setup

	Display
General	Bluetooth	Phone
Audio	Vehicle	

step 1 Press `SETUP` on the faceplate followed by `Bluetooth`.

☑ Bluetooth on
Search for Bluetooth Devices
Make This System Discoverable
Paired Device List
Set PIN for Pairing   0000
Internet Connection

step 2 Touch `Paired Device List`.

Paired Devices:
PC36100

step 3 Touch the desired paired device.

Rename PC36100
Delete Pairing
☐ Disconnect for Phone
Connect for Music
Connect for Internet
Disconnect all

step 4 Touch `Connect for Music`.

CONNECT A SMARTPHONE FOR INTERNET

Depending on your phone compatibility it may not be necessary to connect individually for all functions. Please see paired devices screen: **PRESS** `SETUP` **>** `Bluetooth` **>** `Paired Device List`

In order to connect your smartphone and access Entune™ applications from your car's touch screen, you must **REGISTER AND DOWNLOAD THE ENTUNE APPLICATION FROM A COMPUTER**. Refer to page 2.

• Please ensure your phone is connected per instructions on page 4.
• To check phone compatibility refer to www.toyota.com/entune or scan the ToyoTag on page 2
• You do not need a smartphone to use Bluetooth® hands-free, Bluetooth audio or the navigation system.
• Depending on the details of your data-enabled phone contract, **data usage fees may apply**. Data can stream if connected, even if you aren't accessing APPS.

Quick Tip -
In order to connect for internet services, the Entune application on the mobile device must be open.
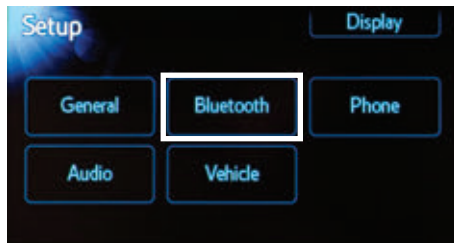

step 1 Press `SETUP` on the faceplate followed by `Bluetooth`.
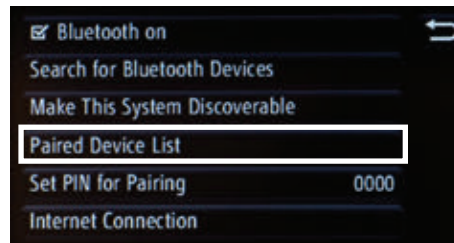

step 2 Touch `Paired Device List`.
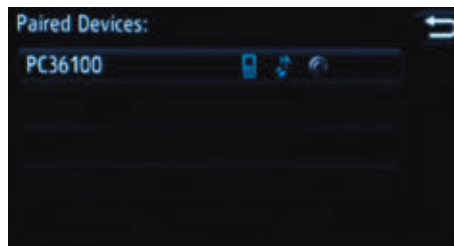

step 3 Touch the desired paired device.
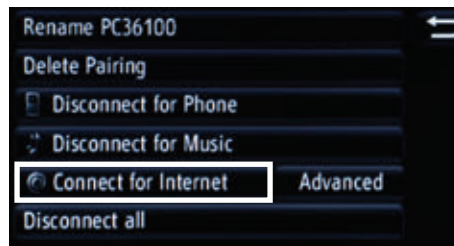

step 4 Touch `Connect for Internet`. Follow any additional instruction shown on screen or phone.

Quick Tip - Entune services use cell phone data plan. Charges may occur if plan roaming restrictions are exceeded. Using `Advanced` features may add additional charges from your service provider. See www.toyota.com/entune for further details.

Press **APPS** on the faceplate, followed by ◀ and ▶ to scroll through applications. Touch the desired application.
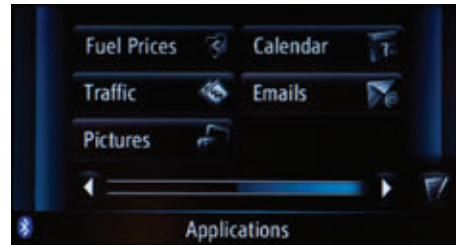

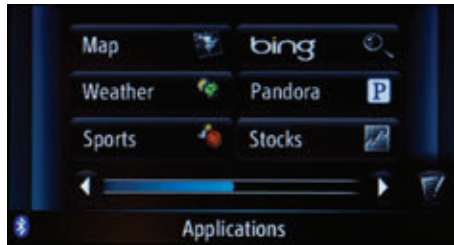

Quick Tip - An application is open when ▶ is displayed on the left side of the name. Touching in the lower right corner, followed by **Close** will close an application.
Only APPS visible on the screen are available through Entune. Other APPS downloaded on your phone are not available through Entune.

ADDITIONAL NAVIGATION FEATURES

ROUTE PREFERENCES

Once the address has been entered, select the route preferences.

One of three routes may be chosen for the trip:
Fast- offers the shortest route by time.
Short- most direct based upon driven mileage.
Ecological- lowest fuel usage.

AVOIDANCE CRITERIA
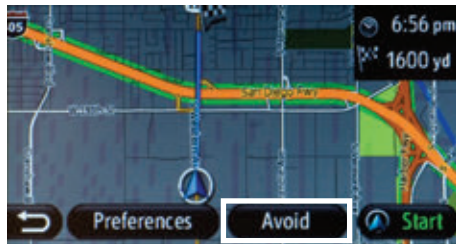

Once the address has been entered, select the avoidance criteria for the trip.
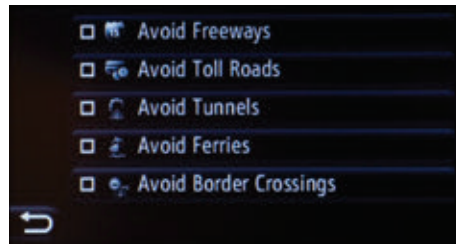

For example, if Avoid Toll Roads is checked, the system will route over non-toll roads which may take longer to reach the destination.
